

Words and Phrases

This example grid set aims to be:

1. Simple to understand and motivating application for trying communication with an eye gaze system for children who use letters and words
2. Easy to complement and change when needed

1. This is the menu grid – with buttons to different choices. The four buttons in the middle row is for quick comments, and they will not open a new grid

	Erase all	Return	Speak
abc...	When?	Why?	
Phrases	Where?	What?	
Questions	How?		
END			

2. From this grid the user can choose some quick phrases, or open new grids with questions, more phrases and letter board.

Who is it, that has 500 legs but still cannot walk?	Where is the ocean the deepest?	What did one potato chip say to the other?
Why can't you take a picture of a Indian woman ...	When is the best time to have lunch?	What makes a man bald-headed?
Do you want to hear one more?	Do you know?	Do you want me to tell you?
END		The answer is ...

Well, ...	Well, ...	Well, ...
Well, ...	Well, ...	Well, ...
END	Back	

3. This grid content six riddles, some comments and one button that leads to the answers. You can choose to go back to the grid with riddles or go back to the menu.

How does the grid work?

This is an example of an easy communication grid, made in VS Communicator 3 Pro, with a menu page that contains four buttons for some quick talk and four buttons that will open new pages, one with a letter board and phrases, one with questions, one with riddles and one with chat about favourite interest (in this example ice hockey). The two grids with the riddles and their answers are colour coded, to help the user to choose the right answer.

Download

This grid set can be downloaded on the COGAIN website but can only be used if you have a licence or a demo of VS Communicator.
